

Exploring Hope in Wonder
Biology of Life

Scripture reading: Psalm 139:13-18

- I. In the beginning God created the heavens and the earth.
- II. The Bible and science tell us important things about life.
- III. Biology continues to explore the complexity of life.
- IV. The Bible gives us God's plan for life.
 - a. God creates all things in his image, which means that life is a precious gift from God.
 - b. We are created to know God and enjoy Him forever.
 - c. We must treat life with dignity and respect.
 - d. Reconciliation with God and others is at the heart of the gospel message.
